

The **MiniFlex Sander** is a strong electrical powered hand tool. It is developed as an alternative to other industrial hand sanders and is used for sanding of flat items and items with profiles and edges.

The speed is adjustable which ensures an optimal sanding result and also a longer lifetime of sanding materials.

The MiniFlex Sander can be mounted with different types of sanding heads.

The MiniFlex Sander mounted with a traditional Flex Trim sanding head, diameter Ø100.

The MiniFlex Sander mounted with a disc head, diameter 180 mm.

Technical specifications:	
Motor	1200 Watt
RPM	700-2200
Electricity	230V - 50-60 -Hz - 5,5 Amp
Weight:	
Traditional sanding head	About 5 kg.
Disc head	About 4 kg.
