

Datasheet for Granudan Latex Cover Shoes

Granudan Latex Cover Shoes are used for walking in blade-molds on wet release-film. The shoes leave minimum marks on the mold surface and protect the worker from falling on a slippery surface. We offer three different sizes with different colors respectively.

Easy to wrap around safety shoes before entering the mold for release application.

Product data:

Item No.:	Red285	Yellow335	Orange350
Color:	red	yellow	orange
weight/pair (gram):	85g	100g	110g
Size (mm):	285 mm	335 mm	350 mm
Shape (stereotype):	Plane	Plane	Plane
Sole (pattern):	wrinkle	wrinkle	wrinkle
PRICE/pair (EUR):	3,44	3,55	3,66
			

Technical specifications:

No.	Items of Inspection	Standard
1	Appearance Quality	No cracking, fragility, sticky
2	No leakage	No leakage under 10±1kPa
3	Tensile Strength	≥19.6MPa
4	Elongation at Break	≥700%
5	Permanent Deformation at Break	≤12%
6	Elongation at Break After Acid Treatment	≥17.6MPa
7	Elongation at Break After Alkaline Treatment	≥650%
8	Tensile Strength After Acid Treatment	≥17.6MPa
9	Tensile Strength After Alkaline Treatment	≥650%
