

Technical specifications

Product:

Granudan Cleaner GR-08

(waterbased cleaner and degreaser)

Typical Properties	
Appearance & Odor	Clear, thin liquid with product specific odor.
Carrier	Water - Blend of Butylglycol and water
Flash Point (C.C)	None
Coverage per liter	Approx. 50 m2
Cure Requirement	None – no polymer!

USP:

- ✓ ENVIRONMENTAL, INDUSTRIAL DEGREASER & CLEANER
- ✓ Very effective degreaser.
- ✓ Ease of Application and Use
- ✓ Fast drying
- ✓ No residue
- ✓ Not flammable
- ✓ Specially designed for removal of waxes, oils other degreasing contaminants from surfaces.
- ✓ Anti-corrosion protection - No risk of corrosion on surface.
- ✓ Removes waxes and other contaminants without harming or dulling the working surface of mould.

DEGREASER/CLEANER:

- waterbased, effective cleaner for degreasing and general cleaning of surfaces.
- 100% biodegradable and not flammable .
- Adequate ventilation should be employed, and resistant gloves and eye protection worn.
- Relative Density: **1,02**
- pH CC: **11,2**
- pH in 2% sol.: **8,1**
- Application method: **Polishing pads, Scotchbrite or Cloth**
- Solubility in water: **100%**
- Stability: **Stable – no reactivity known!**
- VOC: **5-15 % Butylglycol (20 ppm, 98 mg/m3)**
